Erratum to: Quality of reporting of randomised controlled trials in chiropractic using the CONSORT checklist

Fay Karpouzis^{1*}, Rod Bonello², Mario Pribicevic³, Allan Kalamir³ and Benjamin T. Brown³

Erratum

It has been brought to our attention that the last statement in the Results section of the Abstract of this article [1] is incorrect. This currently reads as: “Multivariate regression analysis, revealed that year of publication ($t_{32} = 5.17$, $p = 0.000$, 95 % CI: 0.76, 1.76), and sample size ($t_{32} = 3.01$, $p = 0.005$, 95 % CI: 1.36, 7.02), were the only two factors associated with reporting quality”. The error is the test statistic for the year of publication. It should be: “Multivariate regression analysis, revealed that year of publication ($t_{32} = 1.26$, $p = 0.000$, 95 % CI: 0.76, 1.76), and sample size ($t_{32} = 3.01$, $p = 0.005$, 95 % CI: 1.36, 7.02), were the only two factors associated with reporting quality”.
